WHAT WOULD THE ESTIMATED BALANCE BE AFTER 24 MONTHS BASED ON A £1,000 DEPOSIT?	A deposit of £1,000 at an annual Gross rate of 0.82% (fixed) would generate an estimated balance of £1,016 in two years – This is for illustrative purposes only. POINTS TO NOTE

- **AER.** This stands for Annual Equivalent Rate. If you left a sum of money in your account all year, the AER would be the interest rate you'd get if we paid you interest during the course of the year and your subsequently higher balance then earned more interest (this is known as Compound Interest). The AER will only be higher than the gross interest rate where we pay you interest more than once a year. We quote the AER on all of our accounts so that you can compare our products with those of other banks.
- **Gross.** This is the interest rate without the deduction of income tax. Interest is paid gross to your account.
- **Financial Services Compensation Scheme (FSCS).** This product is covered by the Financial Services Compensation Scheme (FSCS). The FSCS can pay compensation to depositors if a bank is unable to meet its financial obligations. For further information about the compensation provided by the FSCS (including amounts covered and eligibility to claim), refer to the FSCS website www.FSCS.org.uk or call the FSCS on 0800 678 1100.
